Kodak Disc cameras

3100 The lightweight, compact disc camera has a glass f/2.8 lens, sliding lens cover, motorised film advance, built-in electronic flash with automatic on/off switch and 1.2m to infinity fixed focus. The Kodak Disc 3100 is covered by a full 3-year warranty and is supplied with instruction booklet, wrist-strap Kodacolor VR Disc film and alkaline batteries.

4100 This top of the range Kodak Disc camera has all the easy to use features of the Kodak Disc 3100 plus a fully protective folding cover, ultralife 6-volt lithium battery and full five-year warranty on camera and battery. The outfit comes complete with instruction booklet, wrist-strap and 15 exposure Kodacolor VR Disc film. A soft zip-pack camera case is also available for both Kodak Disc models.

126 and instant cameras.

X-15F The Kodak Instamatic X-15F camera is a reliable, easy-to-use 126 format camera. It offers a range of features including double-exposure prevention, f/11 43mm fixed focus lens, two shutter speeds (daylight and flash), a choice of films (color print, color slides or black and white print), and a flip-flash flash array socket. The X-15F camera is covered by a full 3-year warranty and comes complete with wrist-strap and instruction booklet.

940 The Kodamatic 940 instant camera is an easy-to-use instant camera that gives you clear, sharp color pictures within seconds. Features include; variable electronic shutter, built-in electronic flash, motorised print ejection and lighten-darken control. Outfit includes instruction booklet, batteries, wrist-strap, monograms and full 3-year warranty. With Kodamatic Trimprint film, you just peel off the backing to make a neat versatile Trimprint.
