Dear Mrs Malval,

[indented] Just a few lines to let you know that I received the parcel of magazines that you sent to me, and I appreciate them very much as we dont [sic] get very much reading matter where I am stationed, and I can assure you that the other members of my unit and myself will spend many pleasant hours with them . I have previously read "Life" and "Post" magazines at one of my American friends camps and consider them to be

GOODLUCK 2 YOU [sic] *handwritten at top, centre of page*

pretty decent magazines with varied stories and articles, as yet I haven't read any of the stories and have only glanced through them. Well I don't know much about America but my friend comes from Pennsylvania [sic] and I feel as if I know the place pretty well, as I have heard that much about it. I myself come from Brisbane Queensland where my home is situated in a district called Coorparoo. At the present time my wife and five year old son are stopping [sic] with my mother in the same district but a different street. Well I really can't say much more only that the sports I am interested

[Next page]

in are sailing, swimming and track and feild [sic] games at which I hold a few seconds but that was a few years ago when I was more active. Well seeing that I cannot scribble about any more I will close now hoping you dont [sic] think me to forward in writing this letter to you.

[indented] I remain yours sincerely

Ivan J. Boseb.
