When you need extra copies of an instruction manual, catalog, or any pages of printed matter containing halftones and line reproductions, the cost of making them can be a lot less than you might think.

The way we can do the job for you to save you a sizable sum of money is to reproduce each page directly on Kodagraph Autopositive Film, then run as many copies as are required in our print machine. The results, you'll find, are really amazing. Both text and illustrations are rendered crisp and clean. Every detail is easy to read and comprehend.

Here's just another example of the amazing versatility of Kodagraph Reproduction Materials which make them so useful to us and so valuable to you. Remember them whenever you need copies of anything written, printed, typed, or drawn. Make it a point to mention "Kodagraph" when you send in your order!
