**At Your Service**  
*for picture taking*

"I remember, I remember . . ." says the 'Kodak' as it clicks its way about the world. Handy, versatile, the modern camera goes everywhere, sees everything, and records memorably the best of what it sees for your delight.

Picture-making is much more fascinating, offers far more scope to the amateur, than at any time since the birth of photography a hundred years ago. Thanks to technical advances in lenses and films the old seasonal restrictions have gone; you can now take pictures all the year round, and after dark, too, by artificial light, with the greatest ease. The modern 'Kodak' is not simply a fair-weather friend.

Ceaseless research and discovery have brought the goods presented here to a satisfying pitch of technical excellence. Beginner or advanced worker, you cannot do better than make your selection from these pages and enlist our services in obtaining what you want. Cameras of all types and prices are listed here—not only for snapshot work, but also for the ever more popular pastime of movie-making. Films are described, for black-and-white pictures and colour as well. There are accessories to make your picture-taking more enjoyable; and please remember that our advice on all photographic matters is freely at your disposal.
