**PROFESSIONAL
CATALOGUE
1966/7**

Kodak Professional Catalogue

January 1966

This catalogue provides, in easy-reference form, information about the salient features, sizes, prices and stock availability of 'Kodak' materials and equipment for commercial, industrial and portrait photography.

Items shown are stocked unless otherwise stated. Where applicable, discounts are indicated by the following codes:

(C) 10%	(F) 25 %	(I) 35 %
(D) 15%	(G) 30 %	(M) 12½%
(E) 20%	(H) 33½%	(P) 27½%

The net price after discount is given separately.

Where a price is not liable to purchase tax, this is shown as 'Tax Free'. Most other 'Kodak' products are liable to purchase tax at the standard rate; the exception is when a price includes a charge for processing and only the portion of the price which is the cost of the film material itself is liable to purchase tax.

Prices and details of stock availability are correct at the time of going to press, but are subject to alteration without notice. The *Kodak Trade Circular*, issued every two months, should be used to keep this catalogue up to date.

Note

For information on reprographic and industrial X-ray materials and equipment please refer to the *Kodak Reprographic* and *Industrial X-ray Catalogues* respectively.
