A COMPREHENSIVE SERVICE

Distribution Regions: If you have an account with us, orders should be sent to the distribution point for your region, according to the map below. Any enquiries concerning stock availability, invoicing or deliveries should also be made to the same address. To ensure prompt delivery of your order, please give as much notice as possible, and write or telephone your requirements clearly. Please give your trading title and charging address and, if different, the delivery address.

Sales Centres: Should you need any other information on the Company's products or services, you should get in touch with your Sales Centre. The Sales Centres have been set up to ensure you receive a personal service whether you call, telephone or write. The map below shows the area each Centre serves. If you wish to contact your Kodak Dealer Representative quickly, a message can also be passed to him here.

Your Kodak Dealer Representative and Dealer Sales Supervisor are trained to help you sell photography, and Kodak products in particular, of course. They will keep you up to date with all the Company's products and promotional activities, and will also be pleased to help you with your stock requirements.
